INGATA TECHNOLOGIES LTD

SOFTWARE REQUIREMENTS SPECIFICATION (SRS)

CHURCH WEBSITE MANAGEMENT & INFORMATION SYSTEM

Project Type: Church Website / Digital Ministry Platform
Primary Users: Web Visitors and System Administrator
Primary Purpose: Church Information, Ministry Communication, Events, Sermons, Announcements, Online Engagement and Content Management

1. INTRODUCTION

1.1 Purpose

This Software Requirements Specification (SRS) defines the business, functional, non-functional, content, user-interface, technical, security, administrative and operational requirements for the development of a professional **Church Website**.

The purpose of this document is to establish a clear and shared understanding of the website requirements among church leadership, management, administrators, UI/UX designers, developers, content managers, communication teams, media teams and other project stakeholders.

This SRS shall serve as the primary reference throughout the:

- Requirements analysis
- UI/UX design
- Development
- Content preparation
- Testing
- User acceptance testing
- Deployment
- Training
- Maintenance

The website shall provide the church with a professional digital presence through which visitors can learn about the church, discover ministries, view upcoming events, access sermons and resources, read announcements, and communicate with the church.

1.2 Project Overview

The proposed system is a responsive web-based platform designed to provide information and digital services for a church and its congregation.

The website shall primarily function as a:

- Church information platform
- Ministry communication platform
- Sermon and media platform
- Events platform
- Announcement platform
- Visitor engagement platform
- Digital outreach platform

Visitors shall be able to:

- Learn about the church.
- View the church's mission and vision.
- Learn about church leadership.
- Explore ministries.
- View upcoming events.
- Read announcements.
- View or listen to sermons.
- Access Bible studies and other resources.
- View service schedules.
- Find the church location.

- Contact the church.
- Submit prayer requests where enabled.
- Submit visitor or membership inquiries.
- Access official social-media channels.
- View the website on mobile, tablet and desktop devices.

The System Administrator shall be able to:

- Manage website content.
- Manage sermons.
- Manage events.
- Manage announcements.
- Manage ministries.
- Manage leadership information.
- Manage images and media.
- Manage prayer requests where enabled.
- Manage visitor inquiries.
- Manage FAQs.
- Manage contact information.
- Manage homepage content.
- Manage social-media links.

2. BUSINESS AND MINISTRY OBJECTIVES

The website shall support the following objectives.

2.1 Establish a Strong Digital Presence

Provide the church with a professional, welcoming and accessible online presence.

2.2 Communicate the Church's Mission

Clearly communicate:

- Mission
- Vision
- Beliefs
- Values
- History
- Ministry focus

2.3 Connect With the Community

Provide an easy way for visitors and members to discover and communicate with the church.

2.4 Promote Church Services

Provide information about:

- Worship services
- Bible studies
- Prayer meetings
- Youth services
- Children's services
- Special services

2.5 Promote Church Events

Provide an organized platform for communicating upcoming:

- Conferences
- Retreats
- Worship events
- Prayer events
- Community activities
- Youth programs
- Children's programs
- Special celebrations

2.6 Share Sermons and Christian Resources

Provide access to:

- Sermons
- Bible studies
- Devotionals
- Audio messages
- Video messages
- Downloadable resources

2.7 Support Digital Outreach

Enable people who discover the church online to:

- Learn about the church.
- Watch or listen to sermons.
- Contact the church.
- Submit prayer requests.
- Visit the church.
- Participate in activities.

2.8 Improve Church Communication

Provide a centralized platform for:

- Announcements
- News
- Events
- Service schedules
- Ministry updates

3. PROJECT SCOPE

The website shall include the following major capabilities.

3.1 Church Information

- Homepage
- About Us
- Church history
- Mission
- Vision
- Core values
- Statement of faith/beliefs
- Leadership
- Contact information

3.2 Ministries

The website shall provide information about church ministries, such as:

- Children's Ministry
- Youth Ministry
- Women's Ministry
- Men's Ministry

- Worship Ministry
- Prayer Ministry
- Bible Study
- Outreach Ministry
- Community Service
- Other approved ministries

3.3 Church Services

The website shall display:

- Service times
- Service types
- Service locations
- Special service information

3.4 Events

The website shall support:

- Upcoming events
- Event details
- Event dates
- Event times
- Event locations
- Event images
- Event descriptions
- Registration information where applicable

3.5 Sermons and Media

The website shall provide:

- Sermon listing

- Sermon details
- Audio sermons
- Video sermons
- Sermon categories
- Speaker information
- Sermon dates
- Scripture references
- Media links

3.6 Announcements

The website shall provide:

- Church announcements
- News
- Ministry updates
- Special notices

3.7 Visitor Engagement

The website shall provide:

- Contact form
- Visitor inquiry
- Prayer request form where enabled
- Ministry inquiry
- Telephone contact
- Email contact
- WhatsApp where applicable
- Social-media links

3.8 Location

The website shall provide:

- Church address
- Interactive map
- Directions
- Service location
- Contact information

4. TARGET AUDIENCE

The website shall serve the following audiences.

4.1 First-Time Visitors

People discovering the church for the first time.

They should be able to quickly understand:

- Who the church is.
- Where it is located.
- When services are held.
- What the church believes.
- How to contact the church.

4.2 Church Members

Existing members looking for:

- Events
- Announcements
- Sermons
- Ministry information
- Service schedules
- Church resources

4.3 Families

Families looking for:

- Children's ministry
- Youth programs
- Family activities
- Worship services

4.4 Young People

Young people looking for:

- Youth ministry
- Events
- Bible studies
- Fellowship opportunities
- Worship activities

4.5 Community Members

People interested in:

- Community activities
- Outreach programs
- Support programs
- Church events

4.6 Online Visitors

People accessing the church's sermons, teachings and other resources from outside the local area.

5. USER ROLES

The system shall initially support two primary user roles:

1. **Web Visitor**
2. **System Administrator**

5.1 Web Visitor

A Web Visitor shall be able to:

1. Access the website.
2. Navigate between pages.
3. Learn about the church.
4. View the church mission and vision.
5. View beliefs.
6. View church leadership.
7. View ministries.
8. View service times.
9. View upcoming events.
10. View announcements.
11. Browse sermons.
12. Watch or listen to available sermons.
13. Download approved resources.
14. Submit contact inquiries.
15. Submit prayer requests where enabled.
16. Submit visitor information where enabled.
17. View the church location.
18. Access social-media channels.
19. Contact the church.
20. View the website on mobile, tablet and desktop devices.

Web Visitors shall not have access to the administration dashboard.

5.2 System Administrator

The System Administrator shall have authenticated access to the administration dashboard.

The administrator shall be able to:

1. Log in securely.
2. Manage homepage content.
3. Manage church information.
4. Manage ministries.
5. Manage events.
6. Manage sermons.
7. Manage sermon media.
8. Manage announcements.
9. Manage leadership information.
10. Manage images.
11. Manage downloadable resources.
12. Manage FAQs.
13. Manage visitor inquiries.
14. Manage prayer requests where enabled.
15. Manage contact information.
16. Manage social-media links.
17. Manage website settings.
18. Publish or unpublish content.
19. Update service schedules.
20. Log out securely.

6. WEBSITE OBJECTIVES

The website shall support the following visitor journey.

Discover

The visitor discovers the church through:

- Search engines
- Social media
- Word of mouth
- Online advertising
- Direct website visits

Learn

The visitor learns about:

- The church
- Leadership
- Beliefs
- Mission
- Ministries

Explore

The visitor explores:

- Services
- Events
- Sermons
- Church activities

Engage

The visitor may:

- Contact the church.

- Submit a prayer request.
- Ask a question.
- Request additional information.

Participate

The visitor may:

- Attend a service.
- Attend an event.
- Join a ministry.
- Watch a sermon.
- Participate in approved church activities.

7. INFORMATION ARCHITECTURE

The proposed primary navigation shall be:

HOME

ABOUT US

The final navigation may be customized according to the church's structure.

8. FUNCTIONAL REQUIREMENTS

ID	Requirement	Priority
FR-001	The website shall provide a professional church homepage.	High
FR-002	The website shall provide church information.	High
FR-003	The website shall display the church mission and vision.	High
FR-004	The website shall display approved beliefs/statement of faith.	High
FR-005	The website shall provide leadership information.	High
FR-006	The website shall display church ministries.	High
FR-007	The website shall display service schedules.	High

FR-008	The website shall display upcoming events.	High
FR-009	The website shall provide sermon listings.	High
FR-010	The website shall provide sermon audio/video where available.	High
FR-011	The website shall provide church announcements.	High
FR-012	The website shall provide a contact form.	High
FR-013	The website shall provide a prayer request mechanism where enabled.	Medium
FR-014	The website shall provide church location information.	High
FR-015	The website shall provide social-media links.	Medium
FR-016	The website shall provide downloadable resources where applicable.	Medium
FR-017	The website shall be responsive.	High
FR-018	The website shall support SEO best practices.	High
FR-019	The website shall support analytics.	Medium
FR-020	The system shall provide an administrator dashboard.	High
FR-021	The administrator shall manage sermons.	High

FR-022	The administrator shall manage events.	High
FR-023	The administrator shall manage ministries.	High
FR-024	The administrator shall manage announcements.	High
FR-025	The administrator shall manage church information.	High
FR-026	The administrator shall manage website media.	High
FR-027	The administrator shall manage inquiries.	High
FR-028	The system shall implement secure administrator authentication.	High
FR-029	The website shall validate submitted forms.	High
FR-030	The system shall support content publishing/unpublishing.	High

9. HOMEPAGE REQUIREMENTS

The homepage shall create a welcoming first impression and provide quick access to important church information.

The homepage shall contain:

1. Header and navigation.
2. Hero section.
3. Welcome message.
4. Service schedule.
5. Primary CTA.

6. About the church.
7. Ministries.
8. Upcoming events.
9. Latest sermons.
10. Latest announcements.
11. Prayer/contact CTA.
12. Church location.
13. Social-media links.
14. Footer.

10. HEADER AND NAVIGATION

The header shall contain:

- Church logo.
- Main navigation.
- Service information or CTA.
- Contact/visit CTA.
- Mobile navigation menu.

Recommended navigation:

Home | About Us | Ministries | Services | Sermons | Events | Resources | Contact

The header shall remain visually consistent throughout the website.

11. HERO SECTION

The hero section shall immediately communicate the church's identity and welcoming message.

Proposed Headline

Welcome to [Church Name]

Supporting Message

A welcoming community committed to faith, worship, fellowship, service and sharing the message of Christ.

Primary CTA

Plan Your Visit

Secondary CTA

Watch Sermons

Final messaging shall be approved by church leadership

12. SERVICE INFORMATION

The homepage shall clearly display regular church services.

Example:

Sunday Worship

Sunday — 9:00 AM

Main Worship Service

Sunday — 10:30 AM

Bible Study

Wednesday — 6:00 PM

The actual service schedule shall be provided and approved by church leadership.

The service section shall include:

- Service name
- Day
- Time
- Location
- Additional information where applicable

13. ABOUT THE CHURCH

The website shall provide information about the church.

The About section may include:

- Church history
- Background
- Mission
- Vision
- Values
- Beliefs
- Community involvement
- Leadership

Proposed Introduction

We Are a Community of Faith

[Church Name] is a community committed to worship, spiritual growth, fellowship, service and sharing the message of Christ with individuals, families and the wider community.

Final content shall be approved by church leadership.

14. MISSION

The website shall display the approved church mission statement.

Example

Our Mission

To proclaim the Gospel, nurture spiritual growth, build a Christ-centered community, and serve people with love and compassion.

The final mission statement shall be supplied and approved by church leadership.

15. VISION

The website shall display the approved church vision statement.

Example

Our Vision

To be a Christ-centered community that transforms lives, strengthens families and positively impacts the community.

The final vision statement shall be approved by church leadership.

16. CORE VALUES

The church may communicate its core values.

Potential values include:

- Faith
- Love
- Integrity
- Service
- Compassion
- Fellowship
- Discipleship
- Excellence
- Community

The final values shall be approved by church leadership.

17. STATEMENT OF FAITH / BELIEFS

The website shall provide the church's approved statement of faith.

The section may address:

- The Bible
- God
- Jesus Christ

- The Holy Spirit
- Salvation
- Prayer
- The Church
- Baptism
- Communion
- Christian living
- Resurrection
- Other doctrinal beliefs

All doctrinal content shall be provided and approved by church leadership.

18. LEADERSHIP PAGE

The Leadership page shall provide information about church leadership.

Possible leadership roles include:

- Senior Pastor
- Associate Pastor
- Youth Pastor
- Children's Ministry Leader
- Worship Leader
- Ministry Leaders
- Church Board/Leadership Team

Each leadership profile may include:

- Name
- Position
- Photograph
- Biography

- Ministry responsibility
- Contact information where appropriate

Only approved information shall be published.

19. MINISTRIES PAGE

The Ministries page shall provide an overview of the church's ministries.

Each ministry shall include:

- Ministry name
- Description
- Target audience
- Meeting schedule
- Location
- Ministry leader where appropriate
- Image
- Contact information
- CTA

20. CHILDREN'S MINISTRY

The website may provide information about children's activities.

Content may include:

- Children's services
- Bible lessons
- Sunday school
- Children's events
- Age groups
- Meeting times
- Safety information where appropriate

The final content shall be approved by church leadership.

21. YOUTH MINISTRY

The Youth Ministry section may include:

- Youth services
- Bible study
- Youth fellowship
- Youth events
- Camps
- Outreach activities
- Meeting times

22. WOMEN'S MINISTRY

The Women's Ministry section may include:

- Women's fellowship
- Bible studies
- Prayer meetings
- Conferences
- Workshops
- Community activities

23. MEN'S MINISTRY

The Men's Ministry section may include:

- Men's fellowship
- Bible studies
- Prayer
- Conferences
- Outreach

- Community activities

24. WORSHIP MINISTRY

The Worship Ministry section may provide information about:

- Worship team
- Choir
- Music ministry
- Rehearsals
- Worship events

25. PRAYER MINISTRY

The Prayer Ministry section may provide:

- Prayer meeting schedule
- Prayer activities
- Prayer resources
- Prayer request information

26. SERVICES PAGE

The Services page shall provide detailed information about church services.

Each service may contain:

- Service name
- Day
- Time
- Location
- Description
- Target audience
- Additional instructions

27. EVENTS PAGE

The Events page shall display upcoming and approved church events.

Events may include:

- Conferences
- Retreats
- Prayer events
- Worship events
- Youth events
- Children's events
- Community outreach
- Special celebrations
- Seminars
- Workshops

28. EVENT DETAILS

Each event shall contain, where applicable:

- Event title
- Event image
- Date
- Start time
- End time
- Location
- Description
- Organizer
- Speaker
- Registration information

- Contact information
- Map
- Event statu

29. EVENT MANAGEMENT

The System Administrator shall be able to:

- Create events.
- Edit events.
- Publish events.
- Unpublish events.
- Delete events.
- Set event dates.
- Upload event images.
- Add event descriptions.
- Add location information.
- Add registration information.

Past events may be archived.

30. SERMONS PAGE

The Sermons page shall provide access to church messages.

Each sermon may include:

- Sermon title
- Speaker
- Date
- Scripture
- Category
- Description

- Audio
- Video
- Thumbnail
- Download option where approved

31. SERMON CATEGORIES

Sermons may be categorized by:

- Speaker
- Topic
- Bible book
- Date
- Series
- Ministry
- Service

Visitors shall be able to browse available sermons.

32. SERMON SEARCH

Where implemented, visitors shall be able to search sermons using:

- Sermon title
- Speaker
- Topic
- Scripture
- Series

The system shall display relevant results.

33. SERMON MEDIA

The website may support:

- Embedded video
- Audio player
- YouTube links
- Vimeo links
- Audio files
- Downloadable sermons

External media platforms may be used where appropriate.

34. ANNOUNCEMENTS

The website shall provide a section for church announcements.

Announcements may include:

- Church notices
- Schedule changes
- Upcoming activities
- Ministry updates
- Community announcements
- Special messages

Each announcement may contain:

- Title
- Content
- Image
- Publication date
- Expiry date
- Category

35. RESOURCES

The website may provide Christian and church-related resources.

Potential resources include:

- Bible study materials
- Devotionals
- Sermon notes
- Church documents
- Reading materials
- Prayer guides
- Event materials
- Downloadable PDFs

Only approved resources shall be published.

36. PRAYER REQUEST

Where enabled, visitors shall be able to submit prayer requests.

The form may include:

- Name
- Email
- Phone
- Prayer request
- Preferred contact method
- Consent/preference regarding follow-up

The website shall clearly communicate how submitted prayer requests are handled.

Prayer requests shall only be accessible to authorized personnel.

37. VISITOR FORM

The website may provide a visitor form for people attending or planning to attend the church.

The form may collect:

- Full name
- Phone number
- Email
- Number of visitors
- Preferred service
- Message
- How they heard about the church

The church shall only collect information necessary for the intended purpose.

38. CONTACT FORM

The Contact page shall provide a general contact form.

The form shall contain:

- Full Name
- Phone Number
- Email Address
- Subject
- Message

Optional fields may include:

- Ministry of interest
- Preferred contact method
- Preferred contact time

39. FORM VALIDATION

The system shall validate:

- Required fields
- Email addresses
- Phone numbers
- Message length
- Input formats

The system shall sanitize submitted information and implement appropriate spam protection.

40. FORM SUCCESS MESSAGE

Upon successful submission, the website shall display:

Thank You

Your message has been received successfully. A member of our church team will contact you using the information you provided.

41. CONTACT INFORMATION

The Contact page shall provide official church contact information.

The page may include:

Church Name

Physical Address

Telephone

Email

WhatsApp

Service Times

Office Hours

Social Media

Only official information approved by church leadership shall be published.

42. LOCATION AND MAP

The Contact page shall provide:

- Church address
- Interactive map
- Directions
- Parking information where applicable
- Public transport information where applicable
- Contact numbers

An approved mapping service may be integrated.

43. PLAN YOUR VISIT

The website should provide a dedicated **Plan Your Visit** section to help first-time visitors.

It may include:

- Service times
- Location
- Parking information
- What to expect
- Children's information
- Dress expectations where applicable
- Contact information
- Accessibility information
- Directions

44. CALL-TO-ACTION REQUIREMENTS

The website shall use clear and welcoming calls to action.

Examples include:

- **Plan Your Visit**
- **Join Us This Sunday**
- **Watch Sermons**
- **Explore Our Ministries**
- **View Events**
- **Submit a Prayer Request**
- **Contact Us**
- **Learn More**
- **Get Directions**
- **Join a Ministry**

45. TESTIMONIALS

Where approved, the church may display genuine testimonials or member stories.

A testimonial may contain:

- Name
- Photograph where authorization exists
- Testimonial
- Member story

The website shall not publish fabricated testimonials.

Appropriate consent shall be obtained before publishing personal stories or photographs.

46. NEWS AND CHURCH UPDATES

The website may contain a News or Church Updates section.

Content may include:

- Church news
- Ministry updates
- Community activities
- Special announcements
- Event recaps
- Leadership messages

Each article may include:

- Title
- Content
- Featured image
- Author
- Publication date
- Category
- SEO metadata

47. FAQ PAGE

The FAQ section shall provide answers to common visitor questions.

Suggested questions include:

1. What time are your services?
2. Where is the church located?
3. What should I expect during my first visit?
4. Is there a children's ministry?
5. Is there a youth ministry?

6. How can I join a ministry?
7. How can I request prayer?
8. Can I watch sermons online?
9. How can I contact the church?
10. How can I participate in church events?
11. Do you have Bible study meetings?
12. How can I get directions to the church?

48. FOOTER REQUIREMENTS

The footer shall contain organized navigation and church information.

51. SEO KEYWORD THEMES

Potential search themes include:

- Church in [City]
- Churches in [City]
- Christian church in [City]
- Worship services in [City]
- Sunday church service
- Bible study in [City]
- Christian sermons

- Church events
- Youth ministry in [City]
- Children's ministry
- Prayer meetings
- Christian community
- [Church Name]

The final SEO strategy shall be based on the church's location, denomination/tradition, approved terminology and communication strategy.

52. TECHNICAL SEO

The website shall support:

- XML sitemap
- Robots.txt
- Canonical URLs
- Open Graph metadata
- Structured data where appropriate
- Mobile-friendly implementation
- HTTPS
- Search-engine indexing
- Clean URLs
- Optimized images
- Appropriate page metadata

53. ANALYTICS

The website may support analytics for:

- Website visitors
- Page views

- Traffic sources
- Popular pages
- Sermon views
- Sermon plays
- Event views
- Contact submissions
- Prayer request submissions
- CTA clicks
- Telephone clicks
- WhatsApp clicks
- YouTube clicks
- Social-media clicks
- Device categories

Analytics implementation shall respect applicable privacy requirements.

54. CONVERSION TRACKING

Primary engagement conversions may include:

- Contact form submission
- Prayer request submission
- Visitor form submission

Secondary conversions may include:

- Sermon views
- Event views
- Plan Your Visit clicks
- Get Directions clicks
- Telephone clicks

- WhatsApp clicks
- Social-media clicks
- Ministry inquiries

55. SOCIAL MEDIA INTEGRATION

The website shall provide links to official church social-media channels.

Potential platforms include:

- Facebook
- Instagram
- YouTube
- TikTok
- X
- WhatsApp

The church may also embed approved YouTube videos or social-media content.

Only official church accounts shall be published.

56. CONTENT MANAGEMENT SYSTEM

The System Administrator shall be able to manage approved website content.

Content management may include:

- Homepage
- About Us
- Mission
- Vision
- Beliefs
- Leadership

- Ministries
- Services
- Sermons
- Events
- Announcements
- Resources
- FAQs
- Prayer requests
- Visitor inquiries
- Images
- Videos/media
- Contact information
- Social-media links

57. ADMINISTRATOR DASHBOARD

The administration dashboard shall provide an overview of website activities.

The dashboard may display:

- Number of published sermons
- Upcoming events
- Recent announcements
- Number of ministries
- New inquiries
- New prayer requests
- Recent content
- Draft content

- Published content

58. SERMON MANAGEMENT

The administrator shall be able to:

- Add sermons.
- Edit sermons.
- Publish sermons.
- Unpublish sermons.
- Delete sermons.
- Add speaker.
- Add date.
- Add Scripture reference.
- Add sermon description.
- Upload audio.
- Add video link.
- Add sermon thumbnail.
- Categorize sermons.

59. EVENT MANAGEMENT

The administrator shall be able to:

- Create events.
- Edit events.
- Publish events.
- Unpublish events.
- Delete events.
- Set event dates.
- Set event times.

- Add locations.
- Upload event images.
- Add descriptions.
- Add speakers.
- Add registration information.

60. MINISTRY MANAGEMENT

The administrator shall be able to:

- Create ministries.
- Edit ministries.
- Publish ministries.
- Unpublish ministries.
- Upload ministry images.
- Add descriptions.
- Add meeting schedules.
- Add ministry leaders.
- Add contact information.

61. ANNOUNCEMENT MANAGEMENT

The administrator shall be able to:

- Create announcements.
- Edit announcements.
- Publish announcements.
- Schedule announcements.
- Unpublish announcements.
- Archive announcements.

Announcements may have:

- Title
- Description
- Image
- Publication date
- Expiry date
- Category

62. MEDIA MANAGEMENT

The administrator shall be able to manage:

- Images
- Sermon thumbnails
- Event images
- Ministry images
- Videos/links
- Audio files
- Documents
- Downloadable resources

Uploaded files shall be subject to appropriate file-type and size validation.

63. PRAYER REQUEST MANAGEMENT

Where prayer requests are enabled, authorized administrators shall be able to:

- View prayer requests.
- Review submissions.
- Update request status.
- Assign requests where required.

- Archive requests.
- Delete requests according to the church's data-retention policy.

Prayer requests shall be treated as private information and shall only be accessible to authorized personnel.

64. WEBSITE CONTENT WORKFLOW

The recommended content workflow shall be:

Create Content

↓

Review

↓

Approve

↓

Publish

↓

Update/Archive

The church may assign different responsibilities for content creation and approval in future versions.

65. CONTENT GOVERNANCE

All church-related content shall be reviewed and approved by authorized church leadership before publication.

This includes:

- Doctrinal statements
- Leadership profiles
- Sermons
- Announcements
- Event information

- Ministry information
- Church history
- Public statements
- Photographs
- Testimonials

66. UI/UX REQUIREMENTS

The website shall have a:

- Welcoming design
- Professional appearance
- Clean interface
- Faith-oriented visual identity
- Clear information hierarchy
- Simple navigation
- Consistent design language
- Accessible interface
- Mobile-friendly experience

The design should communicate warmth, trust, community and professionalism without unnecessary complexity.

67. VISUAL DESIGN REQUIREMENTS

The design shall use:

- Church logo
- Approved brand colors
- Approved typography
- Consistent buttons
- Consistent spacing

- High-quality church imagery
- Appropriate icons
- Clear visual hierarchy
- Accessible typography

Images should appropriately represent the church's community and activities.

68. RESPONSIVE DESIGN

The website shall support:

- Smartphones
- Tablets
- Laptops
- Desktop computers

The interface shall adapt appropriately to different:

- Screen sizes
- Orientations
- Resolutions
- Touch interactions

69. MOBILE EXPERIENCE

Mobile visitors shall be able to access all important functionality, including:

- Navigation
- Service information
- Events
- Ministries
- Sermons
- Announcements

- Prayer request
- Contact form
- Telephone
- WhatsApp
- Location
- Directions
- Social media

Interactive controls shall be appropriately sized for touch interaction.

70. ACCESSIBILITY

The website should follow applicable **WCAG 2.1/2.2 AA** principles where reasonably practicable.

The website shall support:

- Keyboard navigation
- Accessible form labels
- Adequate color contrast
- Alternative text for meaningful images
- Visible focus states
- Logical heading structure
- Accessible buttons
- Clear validation and error messages
- Readable typography
- Accessible media controls where applicable

71. PERFORMANCE REQUIREMENTS

The website shall be optimized for:

- Fast page loading
- Mobile networks
- Optimized images
- Efficient JavaScript
- Browser caching
- Content delivery networks where appropriate
- Lazy loading
- Optimized media

Large sermon videos and audio files should preferably be hosted using an appropriate media platform or optimized delivery mechanism.

72. SECURITY REQUIREMENTS

The system shall implement appropriate security controls, including:

- HTTPS/TLS
- Secure hosting
- Input validation
- Data sanitization
- Spam protection
- Rate limiting where appropriate
- Secure administrator authentication
- Secure password storage
- Secure handling of credentials and secrets
- Cross-Site Scripting protection
- Injection protection

- CSRF protection where applicable
- Appropriate security headers
- Secure file uploads
- Session management
- Access control

73. ADMINISTRATOR AUTHENTICATION

The System Administrator shall authenticate using secure credentials.

The system shall support:

- Email/username
- Password
- Secure login
- Logout
- Password reset where implemented
- Session timeout
- Access control

Passwords shall never be stored in plain text.

Multi-factor authentication may be implemented as a future security enhancement.

74. DATA VALIDATION

The system shall validate:

- Event information
- Sermon information
- Ministry information
- Announcements
- Contact forms

- Prayer requests
- Uploaded files
- Administrator input

Invalid or malicious information shall be rejected.

75. PRIVACY AND DATA PROTECTION

The website shall provide a Privacy Policy explaining:

- Information collected
- Purpose of collection
- How information is used
- How information is protected
- Data-retention practices
- Relevant user rights
- Third-party services
- Contact information for privacy questions

Special consideration shall be given to prayer requests and other potentially sensitive communications.

---

76. COOKIES AND TRACKING

Where cookies, analytics technologies, or similar tracking technologies are used, the website shall provide appropriate disclosure and implement applicable consent mechanisms where required.

77. DATA BACKUP

The system shall support appropriate backup procedures.

Backups may include:

- Church information
- Sermons

- Events
- Announcements
- Ministries
- Images
- Documents
- Inquiry records
- Prayer requests
- System configuration

Backup frequency shall be determined according to operational requirements.

78. AUDIT LOGGING

The system should maintain audit logs for important administrative activities.

Examples include:

- Administrator login
- Administrator logout
- Content creation
- Content modification
- Content publication
- Content deletion
- User/account changes
- Prayer request management

Audit records shall be protected from unauthorized modification.

79. BROWSER COMPATIBILITY

The website shall support current versions of:

- Google Chrome
- Microsoft Edge
- Mozilla Firefox
- Safari

The website shall also support modern Android and iOS browsers.

80. ERROR HANDLING

The system shall provide user-friendly error messages.

Page Not Found

The page you are looking for could not be found.

Form Error

Please review the highlighted fields and try again.

Sermon Unavailable

This sermon is currently unavailable. Please check back later.

System Error

Something went wrong. Please try again later.

Technical system details shall not be exposed to ordinary visitors.

81. DATABASE REQUIREMENTS

The system database may contain the following entities:

- Administrators
- Church Information
- Ministries
- Ministry Leaders
- Services

- Sermons
- Sermon Categories
- Events
- Announcements
- Resources
- FAQs
- Prayer Requests
- Visitor Inquiries
- Contact Messages
- Media
- Website Settings
- Social Media Links
- Audit Logs

Database relationships shall maintain data integrity and consistency.

82. SAMPLE SERMON RECORD

Example:

Field	Example
Sermon Title	Walking in Faith
Speaker	Pastor John Doe
Date	15 September 2026
Scripture	Hebrews 11:1
Category	Faith
Description	A message about developing a life of faith
Audio	Available

Video	Available
Status	Published

The example is for demonstration only.

83. SAMPLE EVENT RECORD

Example:

Field	Example
Event Name	Annual Worship Conference
Date	20 October 2026
Time	09:00 AM
Location	Main Church Auditorium
Speaker	Pastor John Doe
Status	Upcoming
Registration	Required

Actual information shall be provided and approved by the church.

84. SECURITY AND ACCESS CONTROL MATRIX

86. NON-FUNCTIONAL REQUIREMENTS

86.1 Usability

The website shall be:

- Easy to navigate
- Welcoming
- Clear
- Consistent
- Accessible
- Mobile-friendly

86.2 Reliability

The website shall provide reliable access to church information and resources.

86.3 Maintainability

The system shall use a maintainable architecture and organized source code.

86.4 Scalability

The system should support future growth in:

- Sermons
- Events
- Ministries
- Resources
- Announcements
- Website visitors

86.5 Security

Administrative functions and submitted visitor information shall be appropriately protected.

87. FUTURE SYSTEM ENHANCEMENTS

The initial system may be expanded in future phases to support:

- Member registration
- Member accounts
- Online donations
- Online giving
- Event registration
- Ministry registration
- Church membership management

- Small-group management
- Volunteer management
- Church attendance management
- SMS notifications
- Email newsletters
- Live streaming
- Online Bible studies
- Mobile application
- Push notifications
- Online counseling appointment requests
- Advanced analytics
- Multi-language support

These features shall be considered future enhancements unless explicitly included in the approved project scope.

88. OUT-OF-SCOPE REQUIREMENTS

Unless specifically approved, the initial website shall not include:

- Full church membership management
- Financial/accounting management
- Payroll
- Internal HR management
- Full event-ticketing system
- Online donation/payment processing
- Church attendance management
- Private member portal
- Internal staff management

- Complex CRM functionality

These capabilities may be implemented in future phases.

89. ACCEPTANCE CRITERIA

The website shall be considered ready for acceptance when:

- The homepage functions correctly.
- Church information is accessible.
- Mission and vision are displayed correctly.
- Approved beliefs are displayed.
- Leadership information is available.
- Ministries can be viewed.
- Service schedules can be viewed.
- Events can be viewed.
- Sermons can be accessed.
- Sermon media works correctly where provided.
- Announcements can be viewed.
- Resources can be accessed where provided.
- Visitors can submit contact forms.
- Prayer requests work correctly where enabled.
- Church location and directions are available.
- Administrator authentication works correctly.
- Unauthorized users cannot access the administration area.
- Administrators can manage approved content.
- Website content updates appear correctly on the public website.
- The website works on mobile, tablet and desktop.
- Supported browsers have been tested.
- Security controls have been implemented.
- SEO requirements have been implemented.
- Analytics are configured where required.
- Church leadership has reviewed and approved the final website.

90. TESTING REQUIREMENTS

The project shall include:

90.1 Functional Testing

Verify that all website functions operate according to the requirements.

90.2 UI/UX Testing

Verify:

- Layout
- Navigation
- Typography
- Buttons
- Forms
- Images
- Media players
- Content presentation

90.3 Responsive Testing

Test:

- Mobile
- Tablet
- Laptop
- Desktop

90.4 Browser Testing

Test:

- Chrome
- Edge
- Firefox

- Safari

90.5 Media Testing

Verify:

- Sermon audio
- Sermon video
- Images
- Documents
- External media links

90.6 Security Testing

Test:

- Administrator authentication
- Authorization
- Input validation
- File uploads
- Form security
- Session management
- Common web vulnerabilities

90.7 Performance Testing

Verify:

- Page loading
- Image loading
- Media loading
- Search performance
- Database response

90.8 User Acceptance Testing

Church leadership and designated stakeholders shall verify that the website satisfies approved requirements.

91. DEPLOYMENT REQUIREMENTS

The production environment shall include:

- Domain name
- SSL certificate
- Web hosting/server
- Database
- Application deployment
- Production configuration
- Backup configuration
- Monitoring
- Analytics
- Search engine configuration

Separate environments should be used where practical:

Development → Testing/Staging → Production

92. MAINTENANCE REQUIREMENTS

After deployment, the website shall require ongoing maintenance.

Maintenance activities may include:

- Sermon uploads
- Event updates
- Announcement updates
- Ministry updates
- Leadership updates
- Image updates

- Security updates
- Software updates
- Database maintenance
- Backup verification
- Content updates
- SEO updates
- Performance optimization
- Bug fixing

93. CONTENT APPROVAL

Church leadership shall approve official church content before publication.

This includes:

- Mission
- Vision
- Beliefs
- Leadership profiles
- Sermons
- Announcements
- Events
- Ministry descriptions
- Church history
- Public statements
- Testimonials
- Photographs

The development team shall not be responsible for the accuracy of church information supplied by the church.

94. BUSINESS/MINISTRY RULES

The following rules shall apply:

- Only authorized administrators may manage website content.
- Official church information shall be approved before publication.
- Only authorized personnel may access submitted prayer requests.
- Personal information shall be handled according to the church's privacy policy and applicable requirements.
- Published events shall contain accurate dates and times.
- Past events should be archived where appropriate.
- Sermon media shall only be published where the church has the appropriate rights or permissions.
- Images containing identifiable individuals should be published in accordance with applicable consent and church policies.
- Only official church contact information shall be displayed.
- Administrative credentials shall remain confidential.
- Doctrinal and theological content shall be approved by church leadership.
- Announcements shall be reviewed before publication.

95. FINAL SYSTEM OBJECTIVE

The primary objective of the **Church Website Management & Information System** is to provide a professional, welcoming, responsive and secure digital platform through which the church can communicate with members, visitors and the wider community.

The system shall enable **Web Visitors** to:

Discover → Learn → Explore → Watch/Listen → Engage → Visit/Participate

while enabling the **System Administrator** to:

Create → Review → Publish → Update → Manage → Archive

church information and digital resources.

The initial implementation shall focus on:

while maintaining an architecture that can support future capabilities such as online giving, membership management, event registration, live streaming and mobile applications.

96. REQUIREMENTS TRACEABILITY SUMMARY

Objective	Related System Features
Establish digital presence	Homepage, About, SEO, Responsive Design
Communicate church identity	Mission, Vision, Beliefs, History
Connect with visitors	Contact, Prayer Request, Visitor Form
Promote services	Service Schedule, Plan Your Visit
Promote ministries	Ministry Directory and Details
Promote events	Events Calendar and Event Details
Share sermons	Sermon Library, Audio, Video
Share announcements	News and Announcements
Provide resources	Resource Library
Manage website	Administrator Dashboard
Protect information	Authentication, Authorization, Security
Improve outreach	SEO, Social Media, Analytics
